P l a s m i d   I n f o r m a t i o n

Plasmid number: [this # will be assigned by Rich]

Name of plasmid:

Insert name (size in base-pairs): *ex: GFP (800 bp)*

Vector name (size in base-pairs):

Total size:

Antibiotic resistance in bacteria:

Antibiotic resistance or selection marker in another species:
Species: *(ex: Drosophila)* **Marker:** *(ex: hygromycin)*

Type of cloning (check one):
　　　　Gateway　　　　Creator　　　　Restriction Enzyme　　　　Other (describe):

Restriction enzymes used for cloning:

Special growth conditions *(e.g. special E. coli host strain)***:**

Published:　　　　yes　　　　no

　Publication:

　PubMed ID:

Plasmid is:　　　　internal　　　　external

　Received
　　from:

Date of generation:

Map available:　　　　yes　　　　no
